### About

In a picturesque village in England, Joan Stanley (**Judi Dench**), lives in contented retirement. Then suddenly her tranquil existence is shattered as she's shockingly arrested by MI5. For Joan has been hiding an incredible past; she is one of the most influential spies in living history... Cambridge University in the 1930s, and the young Joan (**Sophie Cookson**), a demure physics student, falls intensely in love with a seductively attractive Russian saboteur, Leo (**Tom Hughes**). Through him, she begins to see that the world is on a knife-edge and perhaps must be saved from itself in the race to military supremacy. Post-war and now working at a top secret nuclear research facility, Joan is confronted with the impossible: Would you betray your country and your loved ones, if it meant saving them? What price would you pay for peace? Inspired by an extraordinary true story, *Red Joan* is the taut and emotional discovery of one woman's sacrifice in the face of incredible circumstances.
